

linux server 2011 Business Edition

Essential anti-virus, anti-spyware
and anti-spam protection for your
Linux and FreeBSD email servers

Email is the lifeblood of your business, enabling efficient communications with staff, customers and suppliers no matter where they may be located. Your business data, your time and your reputation are too precious to jeopardize by the damage that could easily ensue from clicking on dangerous links or opening an infected file.

If you already have virus protection on your network but don't have protection for the critical data traveling through, and stored on your mail server, you need the award winning protection of AVG Linux Server Edition 2011.

COMMUNICATE SAFELY AND EFFICIENTLY WITH CUSTOMERS, PARTNERS AND SUPPLIERS

- ✓ **Safe and clutter free inbox** with AVG Anti-Spam
Marks all unwanted emails as spam, protecting you and your business from online scams and keeping your inbox clutter free.
- ✓ **Clean and protect your email servers** with AVG email server protection
Keeps your email servers free from phishers, spammers, scammers and viruses, ensuring the smooth running of your vital email system.

GET THE MOST OUT OF OUR PEOPLE-POWERED PROTECTION

- ✓ **Take advantage of the most up to date protection** with AVG Protective Cloud Technology.
You will experience no interruptions as AVG constantly and silently carries out tests 'in the cloud' to identify the latest emerging threats, develops solutions—on our machines—and deploys them to yours. Your business will be provided the most up to date protection for every threat we discover.
- ✓ **Benefit from the AVG community** with AVG Community Protection Network
The AVG Community Protection Network acts like a neighborhood watch for the online world, gathering threat data from an ever expanding community and deploying solutions to help everyone to protect each other.

EXPERIENCE SMARTER, FASTER SECURITY THAT WON'T SLOW YOUR BUSINESS DOWN

- ✓ **Save precious time for your business** with AVG Smart Scanning
AVG Smart Scanning scans while you're away and runs in low-priority mode when you're working. It also doesn't waste valuable time scanning files that are already known to be safe.
- ✓ **Secure your business automatically from the latest internet threats** with AVG Anti-Virus, Resident Shield and Smart Anti-Rootkit. Prevents your business from falling victim to or unwittingly spreading a virus, worm, or Trojan horse.
- ✓ **Protect your critical business data** with AVG Anti-Spyware.
Protects your business from Spyware and Adware that keep track of your sensitive business data.

Plus, you get all the benefits of

- Automated Security Updates plus security monitoring and reporting
- Centralized configuration, reporting and updating
- One-stop license management
- Security policy enforcement

Here's how AVG Linux Server Edition 2011 protects your business

SMARTER, FASTER SECURITY THAT WON'T SLOW YOUR BUSINESS DOWN

Smart Scanning (NEW) | Works while you're not and doesn't waste time scanning files we know are safe

AVG Anti-Virus, Resident Shield and Smart Anti-Rootkit (ENHANCED) | Protects your business from falling victim to or unwittingly spreading a virus, worm, or Trojan horse.

AVG Anti-Spyware | Protects your business from Spyware and Adware that keep track of your sensitive business data

AVG Protective Cloud Technology (NEW) | Uses multiple scanning engines and behavioural detection simultaneously to identify emerging and unknown threats.

Silent Mode (NEW) | Enables administrators and users to switch off notifications on workstations

AVG Community Protection Network (NEW) | Latest threat information from around the world so that your business is up-to-date

PROTECT THE CRITICAL DATA ON YOUR LINUX/FREEBSD SERVERS AND MAINTAIN SERVER EFFICIENCY

Centralized Anti-Spam | Prevents phishers, scammers, and spammers from clogging your Linux / FreeBSD mail server

Linux Server Protection | High efficiency anti-virus and anti-spyware protection for your Linux / Free BSD mail server

EASY TO INSTALL AND MANAGE SOLUTIONS THAT ALLOW YOU TO FOCUS ON YOUR BUSINESS

Deployment Cloning Technology | Ensures simple and rapid installation and configuration across your network

Priority Updates | Makes sure your business is always protected against the latest threats—automatically

Auto-Fix Button (NEW) | One click to resolve common issues on individual workstations

Support and Assistance | Technical experts available to help, 24/7

Rescue CD | Makes sure your network can be recovered from a serious existing infection
